

Gelato & Sorbet

Gelato is Italian ice cream. Our gelato is prepared from all natural fresh ingredients, has a smooth texture and is low in butterfat. Compared to ice cream, Gelato has less air and a more intense flavor! It also contains fewer calories and less than half the fat of ice cream. For those of you who have tried our gelato and sorbet you will say – this is just like the one I had in Italy. That is because our recipe is a fourth generation recipe from Florence, Italy made from a formula that is really the best!

Fruit flavors (sorbet) are water based with no dairy products, which makes them fat free and lactose free. Each serving has 0 fat and only about 110 calories.

Cream flavors (gelato) are dairy based with whole milk and cream. Gelato has only 7% butterfat. This means a single serving has less than 7-8 grams of fat and only 140 calories. We hope and trust that you will love “the gelato experience”!
